
BOOK BANK FOUNDATION SPECIAL BULLETIN

BOOK BANK UNIVERSITY

Since the creation of the organization, the Book Bank Foundation has influenced the lives of over 100,000 children and young adults. With creative resources, mental enrichment and motivational speaking as tools, the Book Bank Foundation has strived to be different, yet accommodating to those individuals that we are committed to serving.

With this focus in mind, the Book Bank Foundation is offering a new program that is focused on serving our communities better. As a literacy program, our desire is to go full-circle and continue to push those individuals that are continually encouraged to read, learn, and achieve higher academic goals. From this concept, we are proud to offer to you Book Bank University.

Book Bank University encourages, and rewards, young men and women that have surpassed the struggle against illiteracy and become college-bound. Although some may think that this is the end of a program, the Book Bank Foundation challenges it as a new beginning. Many of our children are still dropping out of high schools on an exponential level. This program is one that rewards those young adults who look to make their lives and our communities better by striving for academic and professional achievement.

Book Bank University is unique because we use the accomplishments by these striving individuals and aid and reward them for an outstanding job by surpassing the negative elements, overcoming challenges, fostering their own directions and dreams. We are leading a charge to support our communities' next doctors, lawyers, engineers, civil servants, businesspeople, etc. This program supports those efforts by monitoring and encouraging our next wave of professionals in a resourceful, creative way that stimulates involvement. The Book Bank Foundation even helps individuals with scholarships and college application fees.

The Book Bank Foundation has sound criteria on which individuals enter into the program. Those criterions will reflect the academic performance, personal goal achievement, role model status, written essays, and community participation.

Applicants will come from high schools while attending their sophomore and senior years. They must meet the set criteria, achieve sound academic scores, and applied to college. In addition, they must be involved in various aspects of their community and the Book Bank Foundations efforts by acting as local ambassadors, tutors, and mentors for the organization.

Once participants are in the program, they are nurtured with direction and advice, and mentors to continue their dreams of attending college. We are also conducting a weekend retreat where celebrities, motivational speakers, and everyday professionals to come and speak to them. Since many of the participants may be the first in their families to attend college, this is an exciting program.

In addition, unique to the program, the Book Bank University Starter Package is for those individuals that proves exemplary academic determination. The starter package includes an impressive batch of resources that would benefit them throughout the college experience. Such as laptops, notebooks, pens and pencils, calling cards, dictionaries, thesauruses, writing aids, credit information, and learning aids. It will have almost everything that they need to get started learning.

Book Bank University is an exciting, paramount program to foster individuals to reach for higher standards by attending college and becoming role models in our communities. The program shows that the Book Bank Foundation stays with our young men and women throughout their academic lives and is proud to introduce this wonderful program to our communities.
